MAGNA MSO-2 ALL POSITION

The Magna MSO-2 is an all position tyre optimized for off-road applications such as mud and sand at rough conditions.

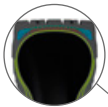

Wide tread and open shoulder blocks contribute to optimal traction for mixed on-/off-road use.

The tread design provides excellent traction.

All steel radial construction. Improved protector plies optimize load performance and operator comfort.

New improved technology of the high-tech casing reduces heat build-up inside the tyre.
